

OUR 40 + YEARS OF AVIATION EXCELLENCE

Founded in 1982, D3 has provided sustained superior support in engineering, aircraft structures, electromechanical, environmental, avionics, & flight control systems; hydraulic & mechanical subsystems; training equipment & facilities; IT; logistics, configuration management, & all other technical services associated with the U. S. Navy's carrier-based fighter & attack missions.

CORE CAPABILITIES

ENGINEERING

- Structures Design & Solid Modeling
- Critical Structures & Mechanical Subsystems
- Maintenance Readiness Team
- Support Equipment – In Service Engineering
- Avionics, Materials, & Structures

PROGRAM/PROJECT MANAGEMENT

- Program/Project Planning & Evaluation
- Cost, Schedule, & Performance Analysis
- QA Performance Monitoring & Controls
- Command Operations Support
- Risk Evaluation & Quality Control

CYBERSECURITY & IT

- Cybersecurity & Info Assurance Support
- Computer Programming & Systems Admin
- RDT&E IT & NMCI Support
- Configuration Management & Procurements
- Risk Management Framework

FINANCIAL/COST ANALYSIS

- Budgeting, Auditing, & Forecasting
- Funding Document Preprocessing
- Financial Management Compliance
- Financial Planning & Reviews
- Risk Assessment & Metrics

STATISTICAL & DATA ANALYSIS

- Data Configuration Management Support
- Business Intelligence Data Strategy
- Quantitative Methods/Predictive Analysis
- Dashboarding, Optimization & Reporting
- Data Architectures, Modeling, & Visualizations

LOGISTICS

- Acquisition, Lifecycle, & Sustainment
- Integrated Logistics Support/Analysis
- Configuration, Inventory, & Asset Management
- Level of Repair Analysis & Maintenance Support
- Packaging, Handling, Storage, & Transportation
